

Around the World Project Outline

Name _____ # _____

Congratulations! You have been hired by the Canadian Department of External Affairs to travel around the world and update their information about the countries of the world. This will help them to improve their relations with all the countries of the world. It may also open up new markets for foreign trade. This will help Canadian **exports** as well as create a Canadian market for the **import** of products from around the world. It will also help us look for solutions to world problems such as global poverty and inequality issues and climate change.

1. You will spend one week in each country.
2. Your budget will be airfare plus **\$1000 per person**. You cannot go over budget.
3. You are being paid airfare plus \$1000 per person to complete the research information for the Government of Canada, Department of External Affairs.
4. Your budget of \$1000 will include accommodation, food, and all non-air travel.
5. Once arriving in the country, your task is to complete the trade mission information sheets.
6. You will then fly off to the next country on your list and complete the trade mission information sheets.
7. Before heading off to the next continent, we will meet by video conference and play the *Where in the World?* game.
8. After you have visited two countries on your continent, we will then hold a video conference and discuss your findings and make recommendations to the Government of Canada. The Minister of External Affairs will be in attendance.
9. You will then fly off to your next continent and we begin all over again!
